CNPJ 34.445.466/0001-12

- Proposta do sistema fotovoltaico;

A proposta oferece geração de **1260 kwh/mês** de média anual, potência do projeto de **8.19 kwp**.

Segue abaixo tabelas com detalhamento do dimensionamento, e custos do investimento.

Dados do módulo fotovoltaico em STC

RONMA BIFACIAL

Modelo:	585W	
Potência de pico:	585	Wp
Eficiência informada no catálogo:	22,8	%

Dados da localidade

Cidade:	PTE. PRUDENTE	
Energia diária fator radiação(média anual):	4920	Wh/m2/dia

Dados do inversor

Modelo:	SAJ 6000	
Potência nominal	6000	W
Eficiência:	98,5	%

Dimensionamento

Energia mensal desejada	1000	kWh
Energia produzida por módulo	72	kWh
Número de módulos	14	
Área dos módulos	36	m2
Potência de pico dos módulos	8190	Wp
Número de inversores	1	

Valor do investimento:

R\$ 13.980,00

AJVC MATERIAIS ELETRICOS
CNPJ 34.445.466/0001-12

- Equipamentos Utilizados;

- 1- Inversor Solar Saj 6k.
- 2- 14 módulos Ronma Bifacial 585W
- 3- STRING BOX (Proteção)
- 4- Trilhos Suportes fixação em alumínio.
- 5- Conectores e cabeamento necessário para o projeto.

- Itens inclusos na proposta;

- 1 - Dimensionamento do projeto de acordo com condições geográficas físicas e media de consumo do cliente
- 2 – Elaborações de todo projeto de engenharia elétrica
- 3 – Autorização e homologação junto à concessionária para conexão a rede
- 4 – Cabeamento elétrico fotovoltaico CC incluso na instalação entre módulos e inversores de frequência.
- 5 – String Box (Sistema de Proteção).
- 7 – Sistema de monitoramento via aplicativo

- Itens não inclusos na proposta;

- 1 – Reforço em estruturas de telhado e adaptações afins
- 2 – Adequações do padrão de entrada do cliente
- 3 – Adequações em sistema de medidor

- Prazo de execução do serviço;

O prazo de entrega dos serviços leva em consideração a elaboração e o tempo para aprovação do cliente sendo 30 dias. A aprovação do projeto, inspeção e liberação da concessionaria mais 30 dias, levando todas as obrigações em consideração o prazo médio para liberação de uso e geração de energia é de até 60 dias. (média de homologação 40 dias).

- Garantias;

- 1 – Instalação 3 anos
- 2 – Placas 25 anos 80% Eficiência – 12 anos fábrica
- 3 – Inversores 10 anos
- 4 – String Box 5 anos
- 5 – Estrutura em alumínio 25 anos

- Pagamentos;

- 1 – Valor a vista via financiamento pelo cliente.
-
